

Limited PowerPlant Rating

Name of Article	Make / Model	Limitations
Engine Rolls Royce	Model 250 Series	Engine rating is limited to the maintenance, preventative maintenance, and alterations of listed engine. All work must be accomplished using the methods, techniques, and practices prescribed in the current manufacturer's maintenance manual or Instructions for Continued Airworthiness prepared by its manufacturer, or other methods, techniques, and practices acceptable to the Administrator of the FAA
Engine Pratt & Whitney	Model PW200 Series	Engine rating is limited to the maintenance, preventative maintenance, and alterations of listed engine. All work must be accomplished using the methods, techniques, and practices prescribed in the current manufacturer's maintenance manual or Instructions for Continued Airworthiness prepared by its manufacturer, or other methods, techniques, and practices acceptable to the Administrator of the FAA.
Engine Pratt & Whitney	Model PW305 Series	Engine rating is limited to the maintenance, preventative maintenance, and alterations of listed engine. All work must be accomplished using the methods, techniques, and practices prescribed in the current manufacturer's maintenance manual or Instructions for Continued Airworthiness prepared by its manufacturer, or other methods, techniques, and practices acceptable to the Administrator of the FAA.
Engine Pratt & Whitney	Model PW545 Series	Engine rating is limited to the maintenance, preventative maintenance, and alterations of listed engine. All work must be accomplished using the methods, techniques, and practices prescribed in the current manufacturer's maintenance manual or Instructions for Continued Airworthiness prepared by its manufacturer, or other methods, techniques, and practices acceptable to the Administrator of the FAA.
Engine Pratt & Whitney	Model JT15D-4 Series	Engine rating is limited to the maintenance, preventative maintenance, and alterations of listed engine. All work must be accomplished using the methods, techniques, and practices prescribed in the current manufacturer's maintenance manual or Instructions for Continued Airworthiness prepared by its manufacturer, or other methods, techniques, and practices acceptable to the Administrator of the FAA.
Engine Lycoming	Model IO-540 Series	Engine rating is limited to the maintenance, preventative maintenance, and alterations of listed engine. All work must be accomplished using the methods, techniques, and practices prescribed in the current manufacturer's maintenance manual or Instructions for Continued Airworthiness prepared by its manufacturer, or other methods, techniques, and practices acceptable to the Administrator of the FAA.
Engine Pratt & Whitney	Model PT6B-37 Series	Engine rating is limited to the maintenance, preventative maintenance, and alterations of listed engine. All work must be accomplished using the methods, techniques, and practices prescribed in the current manufacturer's maintenance manual or Instructions for Continued Airworthiness prepared by its manufacturer, or other methods, techniques, and practices acceptable to the Administrator of the FAA.

Dixie Jet & Rotor Service LLC

Safran Helicopter Engines	Arrius 2R Series	Engine rating is limited to the maintenance, preventative maintenance, and alterations of listed engine. All work must be accomplished using the methods, techniques, and practices prescribed in the current manufacturer's maintenance manual or Instructions for Continued Airworthiness prepared by its manufacturer, or other methods, techniques, and practices acceptable to the Administrator of the FAA.
Williams International, LLC	FJ44 Series	Engine rating is limited to the maintenance, preventative maintenance, and alterations of listed engine. All work must be accomplished using the methods, techniques, and practices prescribed in the current manufacturer's maintenance manual or Instructions for Continued Airworthiness prepared by its manufacturer, or other methods, techniques, and practices acceptable to the Administrator of the FAA.

Limited Airframe Rating

Name of Article	Make / Model	Limitations
Airframe Leonardo	A109 Series	Airframe rating is limited to the maintenance, preventative maintenance, and alterations of listed helicopter. All work must be accomplished using the methods, techniques, and practices prescribed in the current manufacturer's maintenance manual or Instructions for Continued Airworthiness prepared by its manufacturer, or other methods, techniques, and practices acceptable to the Administrator of the FAA, except as noted in 14 CFR part 43 section 43.16, as revised.
Airframe Bell	206 Series	Airframe rating is limited to the maintenance, preventative maintenance, and alterations of listed helicopter. All work must be accomplished using the methods, techniques, and practices prescribed in the current manufacturer's maintenance manual or Instructions for Continued Airworthiness prepared by its manufacturer, or other methods, techniques, and practices acceptable to the Administrator of the FAA, except as noted in 14 CFR part 43 section 43.16, as revised.
Airframe Bell	407 Series	Airframe rating is limited to the maintenance, preventative maintenance, and alterations of listed helicopter. All work must be accomplished using the methods, techniques, and practices prescribed in the current manufacturer's maintenance manual or Instructions for Continued Airworthiness prepared by its manufacturer, or other methods, techniques, and practices acceptable to the Administrator of the FAA, except as noted in 14 CFR part 43 section 43.16, as revised.
Airframe Bell	505 Series	Airframe rating is limited to the maintenance, preventative maintenance, and alterations of listed helicopter. All work must be accomplished using the methods, techniques, and practices prescribed in the current manufacturer's maintenance manual or Instructions for Continued Airworthiness prepared by its manufacturer, or other methods, techniques, and practices acceptable to the Administrator of the FAA, except as noted in 14 CFR part 43 section 43.16, as revised.
Airframe MD Helicopters	369 Series	Airframe rating is limited to the maintenance, preventative maintenance, and alterations of listed helicopter. All work must be accomplished using the methods, techniques, and practices prescribed in the current manufacturer's maintenance manual or Instructions for Continued Airworthiness prepared by its manufacturer, or other methods, techniques, and practices acceptable to the Administrator of the FAA, except as noted in 14 CFR part 43 section 43.16, as revised.
Cessna Citation	560XL Series	Airframe rating is limited to the maintenance, preventative maintenance, and alterations of listed aircraft. All work must be accomplished using the methods, techniques, and practices prescribed in the current manufacturer's maintenance manual or Instructions for Continued Airworthiness prepared by its manufacturer, or other methods, techniques, and practices acceptable to the Administrator of the FAA, except as noted in 14 CFR part 43 section 43.16, as revised.

Dixie Jet & Rotor Service LLC

Learjet	60/60XR Series	Airframe rating is limited to the maintenance, preventative maintenance, and alterations of listed aircraft. All work must be accomplished using the methods, techniques, and practices prescribed in the current manufacturer's maintenance manual or Instructions for Continued Airworthiness prepared by its manufacturer, or other methods, techniques, and practices acceptable to the Administrator of the FAA, except as noted in 14 CFR part 43 section 43.16, as revised.
Cessna Citation	550 Series	Airframe rating is limited to the maintenance, preventative maintenance, and alterations of listed aircraft. All work must be accomplished using the methods, techniques, and practices prescribed in the current manufacturer's maintenance manual or Instructions for Continued Airworthiness prepared by its manufacturer, or other methods, techniques, and practices acceptable to the Administrator of the FAA, except as noted in 14 CFR part 43 section 43.16, as revised.
Cessna	182S/182T/T182T Series	Airframe rating is limited to the maintenance, preventative maintenance, and alterations of listed aircraft. All work must be accomplished using the methods, techniques, and practices prescribed in the current manufacturer's maintenance manual or Instructions for Continued Airworthiness prepared by its manufacturer, or other methods, techniques, and practices acceptable to the Administrator of the FAA, except as noted in 14 CFR part 43 section 43.16, as revised.
Airframe Leonardo	A119/AW119 Series	Airframe rating is limited to the maintenance, preventative maintenance, and alterations of listed aircraft. All work must be accomplished using the methods, techniques, and practices prescribed in the current manufacturer's maintenance manual or Instructions for Continued Airworthiness prepared by its manufacturer, or other methods, techniques, and practices acceptable to the Administrator of the FAA, except as noted in 14 CFR part 43 section 43.16, as revised.
MD Helicopters	500N/600N Series	Airframe rating is limited to the maintenance, preventative maintenance, and alterations of listed aircraft. All work must be accomplished using the methods, techniques, and practices prescribed in the current manufacturer's maintenance manual or Instructions for Continued Airworthiness prepared by its manufacturer, or other methods, techniques, and practices acceptable to the Administrator of the FAA, except as noted in 14 CFR part 43 section 43.16, as revised.
Cessna Citation	525 Series	Airframe rating is limited to the maintenance, preventative maintenance, and alterations of listed aircraft. All work must be accomplished using the methods, techniques, and practices prescribed in the current manufacturer's maintenance manual or Instructions for Continued Airworthiness prepared by its manufacturer, or other methods, techniques, and practices acceptable to the Administrator of the FAA, except as noted in 14 CFR part 43 section 43.16, as revised.
